

Integrate Register - Streamline your business

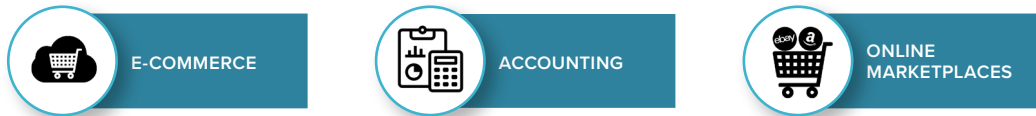

Make better decisions faster and save time. Retailers of all sizes can struggle to see a holistic or birds eye view of their business. Multiple disconnected systems incur delayed accounting, an inconsistent customer view and a lack of enterprise-wide stock management. To scale efficiently you need to keep your business data in sync.

By connecting Register, all systems are updated automatically. Connect Register to your ecommerce site, online marketplace, and accounting system. This keeps your sales, products, stock, customers and finances always up-to-date across all your systems.

Connecting Register automates process and enables growth

INTEGRATE REGISTER WITH YOUR SYSTEMS

Sync your Product, Stock, Sales and Returns data
