Simple to use,
cost effective EPOS

Maximise Profit · Simplicity · Peace of Mind · Save Time · Grow & Innovate · Stay Current

Register by Smart Volution is an innovative, cost-effective and modern EPOS solution combined with enterprise class support. Designed for simplicity and suitable to a wide range of business types including retail, hospitality, salon and service establishments. Register allows small to medium-sized businesses to harness enterprise efficiencies at an affordable price point. Provide service anywhere with fixed and mobile EPOS.

Modern Innovative functionality > Simple to use, operates offline and continually updated

Enterprise class support > Dedicated multi-tier support team

Multi-store > Centrally manage, monitor and report on the total estate in real time

Web Portal > Business reporting, product management and Register configuration from anywhere

Scale Safely > Unlimited users, securely backed up with a hybrid architecture (Cloud and local)

Feature Rich > CRM, appointments, text reminders, inventory, tabs, commissions, measured products etc.

Flexible > Multiple configurations per store, retail, cafe, fixed and mobile, user interface can be branded

Control > Centrally manage what staff can action and view, clock in / out, stock, margin, products

Choice > Multiple hardware and payment options available, Register Core or Register Plus

Efficient operations > Speedily modify 1 or 100K+ products at once, centrally update all Registers

Focused on your business > Hospitality, Retail, Salon, Service, Vape Stores, Nail Bars, Bakeries & more

Register comes in two versions to suit your requirements; Register Core and Register Plus. Register Core is designed for typical retail usage. Register Plus is an extension to provide enhanced functionality to specialized merchants.
